

instructions for use

1. Manufacturer: HB-DIGITAL GmbH
Wahlerstr. 16
40472 Düsseldorf
Germany

2. Product: hb-digital Abisolierzange

Wire stripper is designed to strip insulation from solar cables. It allows precise and clean removal of insulation from cables of different diameters, making the connection of connectors faster and easier. The tool is easy to use and reduces assembly time while increasing the accuracy of the work. It is ideal for stripping conductors for solar modules and other system components. It is used to prepare wires for connection to connectors in photovoltaic systems.

Since this is electrical equipment, we strongly recommend that installation be carried out only by qualified personnel to ensure safety and avoid possible damage.
