

## instructions for use

### 1. Manufacturer:

HB-DIGITAL GmbH  
Wahlerstr. 16  
40472 Düsseldorf  
Germany

### 2. Product:

hb-digital junction box

Junction box is used to connect cables in outdoor or humid environments. It protects the connections from moisture and dust, allowing cables to be used safely in such conditions. The box is installed by connecting the cables to the device's outputs. After installation, the connection remains intact and protected from external influences. It is used to organize wiring in areas where protection from water or dirt is required.

Since this is electrical equipment, we strongly recommend that installation be carried out only by qualified personnel to ensure safety and avoid possible damage.
