

## instructions for use

1. Manufacturer: HB-DIGITAL GmbH  
Wahlerstr. 16  
40472 Düsseldorf  
Germany
2. Product: hb-digital Keystone Cable Connector Shop CAT 7

Keystone angle adapter is designed for connecting LAN cables with RJ45 connectors into keystone systems. It supports Category 7 cables and allows connection at an angle, which is ideal for tight spaces or situations where a straight connection would be impractical. The angle adapter is easy to insert into a standard keystone panel, which simplifies the organization of network connections and ensures reliable and stable data transmission. This module is an excellent solution for building neat and effective cable systems in office and home networks.

Since this is electrical equipment, we strongly recommend that installation be carried out only by qualified personnel to ensure safety and avoid possible damage.
