

## instructions for use

1. Manufacturer: HB-DIGITAL GmbH  
Wahlerstr. 16  
40472 Düsseldorf  
Germany

2. Product: hb-digital Keystone Modul

Set consists of keystone modules with RJ45 connectors designed for use in structured cabling systems. The modules are used to connect cables in panels or mounting boxes, allowing for an organized and user-friendly network structure. No special tools are required for installation, making the process faster and easier. These modules allow easy connection of various devices with network ports, such as computers, routers and other devices with RJ45 connectors. After installing the module in the panel, all you have to do is connect the cable to the appropriate connector and the connection is ready for use. These modules are used in offices, homes and other places where easy and efficient connection of network devices is required.

Since this is electrical equipment, we strongly recommend that installation be carried out only by qualified personnel to ensure safety and avoid possible damage.
