

instructions for use

1. Manufacturer: HB-DIGITAL GmbH
Wahlerstr. 16
40472 Düsseldorf
Germany

2. Product: hb-digital network cable connector CAT 6a

Connector is used to connect and extend Category 6a network cables. It uses LSA technology for wire connection, which means that the cables are securely fixed in the connector without the need for additional tools. To use, the cables are simply inserted into the connector's ports and the wires are automatically fastened. This connector is used when a quick and easy connection or extension of cables is required without the need for crimping tools or other additional steps.

Since this is electrical equipment, we strongly recommend that installation be carried out only by qualified personnel to ensure safety and avoid possible damage.
