

instructions for use

1. Manufacturer: HB-DIGITAL GmbH
Wahlerstr. 16
40472 Düsseldorf
Germany

2. Product: hb-digital network cable connector CAT 7

Connector is designed for connecting and extending Category 7 network cables. It uses LSA technology for wire connection, which allows installation without the need for crimping tools. The cables are inserted into the connector's connection ports, where the wires are automatically fixed. The connector is suitable for cables that support Ethernet standards. It is used to create direct connections or extensions of cables in wired network systems.

Since this is electrical equipment, we strongly recommend that installation be carried out only by qualified personnel to ensure safety and avoid possible damage.
