

instructions for use

1. Manufacturer: HB-DIGITAL GmbH
Wahlerstr. 16
40472 Düsseldorf
Germany

2. Product: hb-digital network tester

Network tester is designed for checking the integrity and correct wiring of RJ45 cables. It checks each wire in the cable and detects faults such as wire breaks or faulty contact connections, allowing for quick diagnosis of network problems. The device shows the test result on a display and indicates the correct wiring for each wire pair. The tester can be used for both standard and crossover cables, thus offering versatility. A bag is included for convenient storage and transport of the tool.

Since this is electrical equipment, we strongly recommend that installation be carried out only by qualified personnel to ensure safety and avoid possible damage.
