

## instructions for use

1. Manufacturer: HB-DIGITAL GmbH  
Wahlerstr. 16  
40472 Düsseldorf  
Germany
2. Product: hb-digital Patchkabel CAT 5e

This patch cable is designed for connecting network devices in local networks using unshielded conductors (UTP). It provides stable data transmission at medium speeds and is used for connecting devices with RJ45 connectors in office and home networks. The cable is made of PVC material, which makes it suitable for use in dry indoor environments. It is suitable for making simple and reliable connections in networks where high bandwidth or interference immunity is not required. It is used for data transmission in applications such as connecting computers, printers, routers and other network devices.

Since this is electrical equipment, we strongly recommend that installation be carried out only by qualified personnel to ensure safety and avoid possible damage.
