

instructions for use

1. Manufacturer: HB-DIGITAL GmbH
Wahlerstr. 16
40472 Düsseldorf
Germany
2. Product: hb-digital Patchkabel CAT 7

LAN cable CAT 7 is designed for high-speed data transmission and is used in networks where high performance is required. It has a flat design that makes it easier to lay the cable in tight spaces. The cable is equipped with shielded conductors (U-FTP) that reduce interference and improve signal stability. The material used is copper, which ensures reliable and high-quality data transmission. The cable is suitable for connecting various devices with an RJ45 connector and is used for stable network connections in offices and private homes.

Since this is electrical equipment, we strongly recommend that installation be carried out only by qualified personnel to ensure safety and avoid possible damage.
