

instructions for use

1. Manufacturer: HB-DIGITAL GmbH
Wahlerstr. 16
40472 Düsseldorf
Germany
2. Product: hb-digital Patchkabel RJ45 CAT 8.1

LAN cable CAT 8.1 is used for high-speed data transmission in demanding networks. It is equipped with shielded conductors (S-FTP) that reduce electromagnetic interference and improve signal stability to ensure reliable data transmission. The cable has an LSZH jacket that minimizes smoke and toxic gas emissions in the event of a fire and increases safety. It is suitable for use in offices, data centers and other areas that have high requirements for data transmission speed. It is connected via a standard RJ45 connector, which offers convenience and compatibility with most network devices.

Since this is electrical equipment, we strongly recommend that installation be carried out only by qualified personnel to ensure safety and avoid possible damage.
