

instructions for use

1. Manufacturer: HB-DIGITAL GmbH
Wahlerstr. 16
40472 Düsseldorf
Germany
2. Product: hb-digital Patchpanel mit Keystone Module

Patch panel is used to organize wired network connections. It allows connecting cables and managing them in one place, which facilitates network management. The panel is equipped with keystone connectors that can be used to connect different types of modules. Installation consists in fixing the panel in a rack and connecting the cables to the connectors. This device is used to make the cable connection more convenient and structured.

Since this is electrical equipment, we strongly recommend that installation be carried out only by qualified personnel to ensure safety and avoid possible damage.
