

## instructions for use

1. Manufacturer: HB-DIGITAL GmbH  
Wahlerstr. 16  
40472 Düsseldorf  
Germany

2. Product: hb-digital protective contact coupling

Protective contact coupling is used to connect wires to NYM cables and create a safe, reliable electrical connection. The coupling is used to extend cables or to connect wires in electrical installations. It is easy to install, reliably fixes the wires and protects them from damage to ensure a stable connection. It is suitable for use in various installations where protection against short circuits and corrosion is required and ensures long-term use of the connections.

Since this is electrical equipment, we strongly recommend that installation be carried out only by qualified personnel to ensure safety and avoid possible damage.
