

instructions for use

1. Manufacturer: HB-DIGITAL GmbH
Wahlerstr. 16
40472 Düsseldorf
Germany
2. Product: hb-digital Solarkabel H1Z2Z2

Solar cable is intended for use in photovoltaic (PV) systems and ensures reliable energy transfer from solar modules to inverters or other system components. The cable is made of materials that are resistant to external influences such as UV radiation, temperature and humidity, making it ideal for outdoor use. It has robust insulation that ensures the safety and durability of the system. The cable is laid from the solar modules to other system components and ensures efficient energy transfer over long distances.

Since this is electrical equipment, we strongly recommend that installation be carried out only by qualified personnel to ensure safety and avoid possible damage.
