

instructions for use

1. Manufacturer: HB-DIGITAL GmbH
Wahlerstr. 16
40472 Düsseldorf
Germany

2. Product: hb-digital Cable CAT 7

CAT 7 network cable is used for high-bandwidth data transmission and is suitable for high-load networks. It offers high interference immunity through the use of shielded conductors, which reduces the likelihood of data loss and improves signal stability. The cable has several layers of protection that make it resistant to external influences such as electromagnetic interference. It can be used to connect various devices in home or office networks and ensures a stable and fast connection. The cable is easy to lay and is suitable for installations over longer distances.

Since this is electrical equipment, we strongly recommend that installation be carried out only by qualified personnel to ensure safety and avoid possible damage.
