

instructions for use

1. Manufacturer: HB-DIGITAL GmbH
Wahlerstr. 16
40472 Düsseldorf
Germany

2. Product: hb-digital Extension cable CAT 8 Duplex

CAT 8 network cable is used for high-speed data transmission and ensures a reliable connection in demanding network applications. It is equipped with shielded conductors (S-FTP) that minimize electromagnetic interference and improve signal quality. The cable supports a high frequency bandwidth, which enables data transmission over long distances with minimal loss of quality. The LSZH sheath helps reduce smoke and toxic gas emissions in the event of a fire, thus ensuring safety. It is suitable for use in professional and private networks where high transmission speeds and protection are required.

Since this is electrical equipment, we strongly recommend that installation be carried out only by qualified personnel to ensure safety and avoid possible damage.
